Datasheet:

RASPBERRY SQUID BUTTON (NON-LATCHING)

v1A - 2019-01-01

The Squid Button is a momentary action push switch with trailing leads that end in female header sockets that will fit over GPIO pins on a Raspberry Pi

Absolute Maximum Ratings

		Units
Switching Voltage	10	V
Switching Current	30	mA

Electrical Characteristic

		Units
Series resistor	470	Ω
